CONTENTS

NUMBER 1

Peter F. Credland	1	The structure of bruchid eggs may explain the ovicidal effect of oils
S. R. Povey and R. M. Sibly	11	No oviposition plasticity in *Sitophilus oryzae* (L.) (Coleoptera: Curculionidae)
G. R. Thorpe and S. Whitaker	15	Local mass and thermal equilibria in ventilated grain bulks. Part I: the development of heat and mass conservation equations
G. R. Thorpe and S. Whitaker	29	Local mass and thermal equilibria in ventilated grain bulks. Part II: the development of constraints
Frank H. Arthur and J. Larry Zettler	55	Malathion resistance in *Tribolium confusum* Duv. (Coleoptera: Tenebrionidae): correlating results from topical applications with residual mortality on treated surfaces
David Wool, John H. Brower and Nurit Kamin-Belsky	59	Reduction of malathion resistance in caged almond moth, *Cadra cautella* (Walker) (Lepidoptera: Pyralidae), populations by the introduction of susceptible males
B. P. Saxena, P. R. Sharma, R. K. Thappa and K. Tikku	67	Temperature induced sterilization for control of three stored grain beetles
Announcement	I	

NUMBER 2

MANAGEMENT OF POSTHARVEST ECOSYSTEMS: CURRENT AND FUTURE TRENDS

	71	**Preface**: Management of postharvest ecosystems: current and future trends
Florence V. Dunkel	73	The stored grain ecosystem: a global perspective
Paul G. Fields	89	The control of stored-product insects and mites with extreme temperatures
J. T. Arnason, J. Gale, B. Conilh de Beyssac, A. Sen, S. S. Miller, B. J. R. Philogene, J. D. H. Lambert, R. G. Fulcher, A. Serratos and J. Mihm	119	Role of phenolics in resistance of maize grain to the stored grain insects, *Prostephanus truncatus* (Horn) and *Sitophilus zeamais* (Motsch.)
N. D. G. White	127	A multidisciplinary approach to stored-grain research
H. Kawamoto, R. N. Sinha and W. E. Muir	139	Computer simulation modelling for stored-grain pest management
Announcement	I	
Corrigendum	II	

NUMBER 3

Sudesh Jood, A. C. Kapoor and Ram Singh	147	Mineral contents of cereal grains as affected by storage and insect infestation
V. M. Khaire, B. V. Kachare and U. N. Mote	153	Efficacy of different vegetable oils as grain protectants against pulse beetle, *Callosobruchus chinensis* L. in increasing storability of pigeonpea
G. J. Daglish, M. J. Zorzetto, T. M. Lambkin, J. M. Erbacher and M. Eelkema	157	Control of *Tribolium castaneum* (Herbst) (Coleoptera: Tenebrionidae) in stored peanuts using residual insecticides
G. Barson, D. A. Fleming and E. Allan	161	Laboratory assessment of the behavioural responses of residual populations of *Oryzaephilus surinamensis* (L.) (Coleoptera: Silvanidae) to the contact insecticide pirimiphos-methyl by linear logistic modelling
Charles E. Curtis and Peter J. Landolt	171	Development and life history of *Pyralis farinalis* L. (Lepidoptera: Pyralidae) on an artificial diet
Souhaila H. Mahmood	179	Mite fauna of stored grain seeds in central Iraq
M. F. Braby	183	Sorption of methallyl chloride on wheat
D. K. Kossou, N. A. Bosque-Pérez and J. H. Mareck	187	Effects of shelling maize cobs on the oviposition and development of *Sitophilus zeamais* Motschulsky
D. Permual and G. le Patourel	193	Small bin trials to determine the effectiveness of acid-activated kaolin against four species of beetles infesting paddy under tropical storage conditions
Cornel Adler	201	Vertical dispersion of adult *Sitophilus granarius* (L.) (Coleoptera: Curculionidae) in a wheat column flushed with modified atmospheres
Kaushal K. Sinha and Ashok K. Sinha	211	Impact of stored grain pests on seed deterioration and aflatoxin contamination in maize
K. S. Ranjan, S. S. Sahay and A. K. Sinha	221	The influence of storage structure on aflatoxin contamination in wheat and mustard

NUMBER 4

Peter F. Credland and Julie Dendy	225	Comparison of seed consumption and the practical use of insect weight in determining effects of host seed on the Mexican bean weevil, *Zabrotes subfasciatus* (Boh.)
Edwin L. Soderstrom, David G. Brandl and Bruce Mackey	235	High temperature combined with carbon dioxide enriched or reduced oxygen atmospheres for control of *Tribolium castaneum* (Herbst) (Coleoptera: Tenebrionidae)
M. M. Shafi, S. M. Ahmed, A. Pervez and S. Ahmad	239	Enhancement of poison bait acceptance through taste additives in *Rattus norvegicus*
Michael A. Mullen	245	Development of a pheromone trap for monitoring *Tribolium castaneum*
Hari G. More, Naresh Magan and Brian C. Stenning	251	Effect of microwave heating on quality and mycoflora of sorghum grain

R. B. Sashidhar, Y. Ramakrishna and Ramesh V. Bhat	257	Moulds and mycotoxins in sorghum stored in traditional containers in India
L. W. Kitch, G. Ntoukam, R. E. Shade, J. L. Wolfson and L. L. Murdock	261	A solar heater for disinfesting stored cowpeas on subsistence farms
Agnes W. Brokerhof, H. Jonathan Banks and Richard Morton	269	A model for time–temperature–mortality relationships for eggs of the webbing clothes moth, *Tineola bisselliella* (Lepidoptera: Tineidae), exposed to cold
R. C. Saxena, O. P. Dixit and V. Harshan	279	Insecticidal action of *Lantana camara* against *Callosobruchus chinensis* (Coleoptera: Bruchidae)
J. M. Desmarchelier and S. E. Allen	283	Diflubenzuron as a grain protectant for control of *Sitophilus* species
Ann H. Baier and Barbara D. Webster	289	Control of *Acanthoscelides obtectus* Say (Coleoptera: Bruchidae) in *Phaseolus vulgaris* L. seed stored on small farms—I. Evaluation of damage
Ann H. Baier and Barbara D. Webster	295	Control of *Acanthoscelides obtectus* Say (Coleoptera: Bruchidae) in *Phaseolus vulgaris* L. seed stored on small farms—II. Germination and cooking time
George N. Mbata	301	Egg distribution on seeds by *Callosobruchus subinnotatus* (Pic.) (Coleoptera: Bruchidae)
Announcements	I
